Tkanina je prekrivena specijalnim zaštitnim slojem koji štiti od brzog upijanja tečnosti. Ovo sprečava trenutno prodiranje vode u tkaninu, omogućavajući da se tečnost zadrži na površini materijala u obliku kapljica

Karakteristika PET FRIENDLY sprečava da se dlake zaglave unutar tkanine i olakšava njihovo uklanjanje. Ovo će vam pomoći da se brže rešite prljavštine sa svog nameštaja.

Tkanina ima završnu obradu zasnovanu na nanočesticama, čiji sastav učinkovito blokira prodor prljavštine. Ovo omogućava uklanjanje čak i najtežih mrlja bez potrebe za korišćenjem sredstava za čišćenje.

Boje prikazane na ekranu mogu odstupati od stvarnih iz razloga što njihova nijansa zavisi od okruženja i količine svetlosti
